### EVERLAST RUBY RAISE3D NOZZLES

**Super hard and super fast nozzles for Raise3D. You can now print almost any abrasive material on your Raise3D, Almost forever!**

These nozzles will allow you to print spool after spool of Carbon Fibre, Bronzefill and other abrasive materials. They also leave a particularly beautiful print with PLA , ABS and other filaments. Printing Carbon Fibre on a standard Core will destroy it completely in a few hours, or less than 500g filament. This nozzle can print all day long, week after week. Many users experience that the EVERLAST Ruby "paid itself back" after 1 time use only!

**EVERLAST UM2+ NOZZLES 0.25-0.80 MM**

Super hard and super fast nozzles for UM2+.

These nozzle will allow you to print spool after spool of Carbon Fibre, Bronzefill and other abrasive materials. They also leave a particularly beautiful print with PLA , ABS and other filaments.  
 Printing Carbon Fibre on a standard nozzle will destroy it completely in a few hours, or less than 500g filament, but what is more, you will not be able to finish even one print if it is big enough!  
 This nozzle can print all day long, week after week.  
 Print at 5-15 degrees higher temperature (PLA).  
 Many users experience that the EVERLAST "paid back" after 1 time use only!
