MATCHLESS V3 BLOCK

Unlock the potential of the fantastic Ultimaker 2! Backwards compatible with Olsson Block, UM2 nozzles, etc. Forwards compatible with Matchless.

This Block upgrade will completely transform your Ultimaker 2, untapping its potential.

It is a drop in compatible with Olsson Block. Together with the Matchless nozzles it has the ability to put out many times more plastic/ sec. You can print either wider (bigger nozzle), increased layer height or faster. Or you can combine all features!

OLSSON BLOCK KIT. SALE - 10%

Legacy. Comes as standard in UM2+. This is the original and famous "Olsson Block". It is installed in thousands of Ultimaker 2's world wide.

LEGACY PRODUCT. Few left in stock.

This is the original, famous "Olsson Block", designed by Anders Olsson.

Ships with Olsson Block, 4 nozzles, 0.25-0.40-0.60-0.80mm and tools.

When it came to market it completely changed the usability and thereby the value of the Ultimaker 2. It was subsequently incorporated into the UM2+ as a standard feature.

With it, it became possible to simply and reliably change nozzle in just seconds.

This is Legacy product, and 3D Solex only has a small stock of the item.

It is superseded by the Matchless V3 block, which has a number of significant improvements.

Unfortunately, the Olsson Block has been copied by several Chinese manufacturers, causing trouble for users.

The trouble originates from incorrect calibre of sensor holes, mainly.

A too large heater hole will not be able to absorb the heat from the cartridge. And there is more...
